Access

What type of access does your application need?

Read more about our Application Permission Model (https://dev.twitter.com/docs/application-permission-model).

○ Read only

○ Read and Write

◉ Read, Write and Access direct messages

Note:

Changes to the application permission model will only reflect in access tokens obtained after the permission model change is saved. You will need to re-negotiate existing access tokens to alter the permission level associated with each of your application's users.

Additional Permissions

These additional permissions require that you provide URLs to your application or service's privacy policy and terms of service. You can configure these fields in your Application Settings (/app/13905150/settings).

☐ Request email addresses from users
